

Tuesday, April 14, 2020

Greetings:

Due to the uncertainty of the situation of the global COVID-19 pandemic, the Texas Preserve America Youth Summit has been postponed to June 2021.

This decision was made after communication with the Youth Summit partners. The programming was impacted as local and government restrictions remain in place with an indeterminate ending point at this time. Our priority is, and continues to be, concern for participant well-being.

All the Youth Summit partners remain united and committed to offer the Youth Summit in the Waco area and nearby historic places in June of 2021. Outreach and applications may begin again when schools resume in September.

The Youth Summit Team, the National Park Service, Waco Mammoth National Historic Site, the Texas Historical Commission, City of Waco and NPCA will continue to work with other partners to create a meaningful and impactful program in 2021.

In the meantime, we encourage you to follow us on social media and when possible to plan to visit the Waco Mammoth National Historic Site and the many historic places in the Waco area. Links to websites and social media below.

We hope you and your loved ones are staying healthy and look forward to your participation in future Summits. Should you have questions or concerns, please call me at 303 475-9403 or email to youthsummits@conservationlegacy.org.

Best,

Ann Pritzlaff Walker and the Youth Summit Team
